Please pray for the repose of the soul of Christopher Conway. His funeral Mass will take place here at 11am next Thursday, 16th February, followed by a private Committal for family members only.

On Friday 17th February there will be a Memorial Service, also here at St Winefrides, at 12.30pm. This will include music, prayers and reflections upon Christopher's life, and will not be a Mass. Parishioners are welcome to attend either or both of the services in the Church.

Please pray for the repose of the soul of Rosemary Sargeantson who died peacefully on Wednesday, aged 91. Rosemary attended Mass at St. Winefride's with her daughter Anna Cornell for ten years while she was living in Kew. Her funeral takes place at St. Edmund Campion RC Church, Watlington, Oxon, on Monday 20th February at 2pm.

GENERAL PARISH NOTICES

Update on the Church Frontage & the Tree of Heaven

Attached to this newsletter is the initial brief detailing the proposed scope and timing of works to the church frontage. It has been prepared by Maria Demargne with input from the Church Improvements Working Party and the Parish Finance & Consultative Committees. If you have any comments on the scope please contact Juliet Thompson (coordinator) on jlqt@btinternet.com, or the Parish Office, by 19th February 2017.

The next step is to select and appoint an architect to prepare a feasibility scheme.

The stump of the Tree of Heaven has now been poisoned and we expect that its suckers will need poisoning, possibly several times, as they regrow. A section of the wall has to be demolished to allow effective stump grinding and we plan to do this later in the year once the plans for the church frontage have been finalised.

Could you help to clean the church brass, altar candles & candle stands?

These all need cleaning once per week and can be done at a time to suit volunteers' convenience. If a sufficient number of you could help we could have a rota of cleaners for this. Contact the parish office.

Have you Recently Joined the Parish?

If so you are very welcome. Please make yourself known to Fr. Tom and Canon John and do complete one of our Database Forms which can be found in a box on a table in the narthex.

ST WINEFRIDE'S CHURCH

Leyborne Park, Richmond TW9 3HG

Works to the front of the church and hall, and provision of new access

Description

The Church current Estate consists of the main building which is the church, the church hall to the left as seen from Leyborne Park, which is linked to the main church, and the presbytery to the right of the church which is separated by a drive that leads to the garages at the back. There is also a small external area at the back of the church. The Church is a Building of Townscape Merit and is within the "Kew Road, Kew Gardens and Lawn Crescent" Conservation Area.

All three buildings are set back from Leyborne Park by approximately 10M.

The church has a large paved area to the front, with two generous planted borders along the street boundary providing a central access in line with the main entrance door.

The church hall has a planted front garden with an approximately 2M tall red brick wall along the street boundary that returns towards the church leaving a small passage between the two buildings which can be closed with a gate. The area between the church and the hall is paved as is the area at the front of the church. The brick wall has some lower sections arranged in semi-circle shapes with decorative railings.

The presbytery front garden is mainly paved with a low level wall and a few plants and flower pots.

Scope of works:

The proposed works should include:

1. The construction of a ramp and new steps for disabled access to the church main entrance door on the front elevation

The design and materials should be in keeping with the simplicity and clarity of design of the rest of the building

The design should comply with Part M and K of the current building regulations

The ramp should allow the main doors to continue to open outwards

The overall design of the ramp and steps should be welcoming and generous in proportions while still allowing circulation around the surrounding paved area

2. Provision of a ramp access to the Church side entrance door- for weekdays access (the repository could be relocated if necessary)
3. There should be a generous gathering space in front of the Church and of the Hall.
4. There should be amendment of the planted borders to allow a carriage driveway (or equivalent) for vehicular access to the front of the church for special occasions. If this proves not to be possible then there should be provision for drop off of less mobile passengers
5. Works to the brick wall:

The brick wall has been damaged by a large tree that was planted close to it (the tree has been demolished now). Part of this wall needs to be demolished and re-built as it is currently held by a steep reinforcement strap and in order to enable stump grinding.

The new section of the wall should provide a visual connexion between the hall front garden and the front of the church while allowing the possibility of enclosing the area around the hall for safety to prevent children accessing the road from the hall.

A possible gate/ opening between the two front spaces should be wider than the current one (so wheelchairs can manoeuvre easily)
6. Paving:

Make good existing paving as a result of changing the front borders.

Make good paving around the church hall, as this has been damaged over the years by roots and plants
7. The footprints of the existing buildings should remain the same
8. A Specimen Tree must be planted in the front garden of the hall to have a "presence" in Leyborne Park. (Planning requirement)

9. Re- landscape the front garden for the Hall, keeping the Statue of Our Lady (can be relocated).
Please note that there is a gas meter in the Hall garden which is expensive to relocate. Additional notes of the conversation with gas supplier can be made available if needed.
10. Re- instate the front garden to the Presbytery. This should be done so it is in keeping with the front garden at No. 3 Leyborne Park.
11. Consideration will be given to the repair of the tarmac drive once the plan for the frontage has been agreed.

Brief

The Parish is looking to appoint an Architect to produce a feasibility scheme, prepare different proposals for the works described, submit the necessary applications to the Local Authority (including a design and access statement and necessary forms), to prepare the detailed drawings for Tender and Construction, and to follow the building works on site.

The feasibility scheme should be prepared accompanied with indicative costs that should include the building costs, materials, consultant fees and application fees.

Timescales

The Parish is looking to start building works as soon as possible, ideally during the months of July, August and September 2017. However, if there are significant changes the plans would need to be sent to the Diocesan Architecture Committee,(next meeting on the 24th April 2017) and then to LBRUT Planning Department - which may delay the start date.
